Bill gave an overview of the new website and materials, including fan behavior guidelines and links to Ute history.

Bill Warren introduced Franci Taylor, Director of the American Indian Resource Center. Franci mentioned that there are currently 147 American Indians on campus. She has developed several goals for the American Indian Resource Center (AIRC). The goals are to make the University of Utah the “destination” university for American Indian students; recruit, retain, and graduate American Indian students; create stronger collaborations with all regional American Indian Nations; double enrollment within four years; and expand existing and create new collaborations across campus.
Franci reviewed upcoming events that will occur this month, throughout the remainder of the fall semester and also hi-lighted a few events that will occur spring semester. Franci has begun implementing new programming, such as updating the website, beginning new student organizations, re-establishing and reorganizing the AIRC advisory board.

**COLLEGE FOCUS**

**Information: 4.01 – College Focus**

Senior Vice President Ruth Watkins introduced Dean Robert Newman who gave a report on the College of Humanities. Dean Newman reported that the College of Humanities has 32 majors, 37 disciplinary and interdisciplinary minors; 18 MA, 7 PhD programs, and 4 certificates. The college has 148 tenure line faculty, 55 career line faculty; and 4,610 students including more than 400 graduate and PhD students. The college consists of four departments, eight centers and eight programs. Over the past few years the college has seen a growth in programs, centers and a new department this year.

Dean Newman highlighted the new Environmental Humanities graduate program which began in in 2004. The Program is a first of its kind and is the national model. The program has a $5.2 million endowment which enables funding of graduate students admitted to the program. One of the most tangible outcomes is the gift of the Taft-Nicholson Center for Environmental Humanities in Monument Valley, Montana.

The faculty within the college have received national and international prestigious benchmark awards such as the Guggenheim Fellows, Mellon Scholars, Van der Heyden Berlin Prize in Fiction and Rosenblatt Award. Another highlight of the college is the caliber of students within college. The students within the college perform over 2,500 service learning hours annually.

Nearly ten years ago, the college launched the Community Scholarship for Diversity Fund which provides full tuition to first generation students for four years. This scholarship program has a unique mentoring and advising program and the program is successful with a 96 percent graduation rate. The college also benefits from over 40,000 alumni around the world, which include award winning politicians, Pulitzer Prize writers, corporate vice presidents, CEOs, and University Presidents. The college has actively engaged alumni and alumni's giving has grown from 2 percent in 2002 to over 16 percent in 2014.

A few challenges the college face is a 14 percent decrease in tenure track faculty due to budget cuts in 2008 and 2009. This decline has affected the college’s capacity to sustain current tuition revenue generation. The revenue not only helps support the college but multiple units across the university. Another significant challenge for the college is underfunded graduate stipends. Currently the college pays $13,500 on average vs our peer public PAC 12 pays $19,000 on average.

A copy of the PowerPoint presentation is included as Appendix III with the official minutes of this meeting and is on file in the office of the Secretary to the University.

Health Sciences Chief Financial Officer David Browdy introduced Quinn McKenna, Chief Operating Officer who presented the proposed remodel spaces. David Browdy also introduced William Holt, Program Manager and Andrew Burkhart, Director Facilities and Engineering also in attendance. The University constructed the West Pavilion of the Hospital (Building 522) with a shelled 5th floor. The original design for the space was intended to accommodate an additional patient care unit at the point it is required. The Hospital is now experiencing an increased shortage of acute care patient rooms. Apart from this, in order to facilitate the eventual demolition of Building 521, School of Medicine Building, the Rehabilitation Unit and Therapy Services need to be relocated out of Building 521.
The proposed total project budget is $12,000,000 and will be funded by University Hospital and Clinics funds.

A copy of the proposal is included as Appendix XXI, respectively, with the official minutes of this meeting and is on file in the office of the Secretary to the University.

**Action 7.04 – Capital Facilities Projects-Approval to Remodel Shelled Space, Level B, Building 522, West Pavilion**

The University constructed the West Pavilion of the Hospital (Building 522) with a shelled sub-basement level. The original design for the space was intended to accommodate the Facilities and Engineering (F&E) Department currently located in Building 521, but due to budget constraints was not constructed at that time. In order to facilitate the eventual demolition of Building 521, it recommended that the finish out of this shelled space for its intended purpose, housing the F&E Department and other Hospital services, be accomplished at this time.

The proposed total project budget is $6,000,000 and will be funded by University Hospital and Clinics funds.

A copy of the proposal is included as Appendix XXII, respectively, with the official minutes of this meeting and is on file in the office of the Secretary to the University.

In preparation for the demolition of Building 521, housing the School of Medicine, ambulatory clinical services, rehabilitation and hospital support functions, this proposed project will convert approximately 8,000 square feet of under-utilized, existing surgical services space into outpatient clinic space in HSC Madsen Surgery Center. It will provide space for clinics displaced from Building 521 and/or Building 535 as part of the demolition of Building 521. The renovated clinic space will accommodate 20,000 patient visits per year and relocate approximately 30 employees.

The proposed total project budget is $5,000,000 and will be funded by University Hospital and Clinics funds.
